

Dixell XWEB EVO

Driver Legacy

The Dixell XWEB EVO driver allows the integration of Dixell Evo devices into Tridium's Niagara N4 Framework, allowing interoperability with other systems that communicate with standard and/or proprietary protocols. The driver can be used under all Tridium Niagara N4 platforms where a station is present, such as the JACE, and is perfectly integrated into the Workbench N4 programming tool. All driver components, devices and points are perfectly integrated into the framework; this allows a better efficiency in the design and maintenance of the systems, with lower cost results.

The driver can only communicate via IP with Dixell Evo controllers.

Key Features

- Communication Driver, with HTTP/HTTPS protocol.
- Function to discover the "Device".
- Function to discover the "Points".

Application

- Refrigeration
- Air Conditioning

Niagara Platform

JACE

Niagara Version

N4

Codes

	QL-DIXELL – Driver Dixell for X-WEB EVO - The driver requires Niagara capacity points
QL-DR-XWEVO-J-B-N4	Dixell X-WEB EVO Driver – Base license for JACEB/9/MACNL/MACPRO limited to 250 points*
QL-DR-XWEVO-E100-N4	Dixell X-WEB EVO Driver – Additional 100 points - N4 Compliant only - Requires Maintenance
QL-DR-XWEVO-E250-N4	Dixell X-WEB EVO Driver – Additional 250 points - N4 Compliant only - Requires Maintenance
QL-DR-XWEVO-E500-N4	Dixell X-WEB EVO Driver – Additional 500 points - N4 Compliant only - Requires Maintenance
	*the price includes SMA initial for the first year
QL-DR-XWEVO-SMA-1Y	Dixell X-WEB EVO Driver – maintenance 1 year extension - 10% of the cost of driver + extension (additional points) purchased
QL-DR-XWEVO-SMA-3Y	Dixell X-WEB EVO Driver – maintenance 3 years extension - 25% of the cost of driver + extension (additional points) purchased
QL-DR-XWEVO-SMA-5Y	Dixell X-WEB EVO Driver – maintenance 5 years extension - 35% of the cost of driver + extension (additional points) purchased
